**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 4-6 are rejected under 35 U.S.C. 102(b) as being anticipated by MacKinnon #3,827,508. MacKinnon discloses a piling device comprising a support frame having a lower end mounted on a footing; a mechanism 40 for gripping a pile; a mechanism 28 for driving a pile, wherein the mechanisms are connected to and supported by the frame. The frame would appear to have an opening (located on footing through which the pile is received). Such opening or slot would allow for entry or removal of the frame from around the pile.

***Allowable Subject Matter***

3. Claims 1-3 and 7-14 are allowed.
